Discount drug cards

MILLIONS OF AMERICAN SENIORS have incomes too high to qualify for Medicaid, yet struggle to pay for essential medications that Medicare does not fund. Several pharmaceutical companies have developed discount cards for qualifying seniors. Details about some of the cards are given below. Please contact the companies listed for more information.

GlaxoSmithKline Orange Card

- Eligibility: Medicare recipients earning less than \$26,000 per person or \$35,000 per couple; no existing prescription drug coverage.
- Benefits: Average savings of 30 percent on all GlaxoSmithKline drugs.
- Key drugs covered: Avandia (diabetes); Advair, Flovent and Serevent (respiratory illnesses).
- Participating pharmacies: More than 50,000.
- Available: January 1, 2002
- To apply: Call 1-888-672-6436.

Eli Lilly and Co. LillyAnswers Card

- Eligibility: Medicare recipients earning less than \$18,000 per person or \$24,000 per couple; no existing prescription drug coverage.
- Benefits: \$12 fee for a one-month supply of a Lilly retail drug.
- Key drugs covered: Evista (osteoporosis); Humulin and Humalog (diabetes); Prozac (depression); Zyprexa (schizophrenia).
- Participating pharmacies: CVS, Wal-Mart and Longs Drug Stores.
- Available: April 1, 2002
- To apply: Call 1-877-795-4559 or visit www.lillyanswers.com.

The Pharmacy Care One Card

The National Association of Chain Drug Stores is offering a free Pharmacy Care One Card, which will give low-income seniors access to various discount programs offered by pharmaceutical companies. Enrollment for the card is expected to begin in April, 2002. For more information call 1-703-837-4244.

Novartis Pharmaceuticals CareCard

- Eligibility: Medicare recipients earning less than \$26,000 per person or \$35,000 per couple; no existing prescription drug coverage.
- Benefits: 30 percent to 40 percent discounts on all Novartis drugs.
- Key drugs covered: Diovan, Lotensin, Lotrel (high blood pressure); Exelon (Alzheimer's); Lescol (high cholesterol); Miacalcin Nasal Spray (osteoporosis).
- Participating pharmacies: CVS, Eckerd, Kmart, Kroger, Rite-Aid, Wal-Mart and 9,000 independent pharmacies.
- Available: January 2, 2002
- To apply: Call 1-866-974-2273 or visit www.novartis.com/carecard.

Pfizer Share Card

- Eligibility: Medicare recipients earning less than \$18,000 per person or \$24,000 per couple; no existing prescription drug coverage.
- Benefits: \$15 for each 30-day supply of every medicine that is covered.
- Key drugs covered: Lipitor (cholesterol); Norvasc (high blood pressure, angina); Zyrtec (antihistamine); Aricept (Alzheimer's).
- Participating pharmacies: CVS and Wal-Mart.
- Available: March 1, 2002
- To apply: Call 1-800-717-6005 or visit www.pfizerforliving.com.

A quick look at seniors and prescription medications

Approximately 38 million Americans are eligible for Medicare coverage, which does not include an outpatient drug benefit. Of these, approximately 13 million do not have any type of coverage for prescription medications.

Medicare recipients without prescription coverage spend an average of \$546 per year for outpatient medicines according to the Center for Medicare Service.

While seniors currently represent approximately 12.6% of the U.S. population, a disproportionate 38% of prescriptions are for seniors.

According to the Wall Street Journal, an estimated 80% of retirees use a prescription drug every day.

The National Institute on Drug Abuse (NIDA) recently reported that older Americans “use prescription medicines three times as frequently as the general population and have the poorest rates of compliance with [medication] directions.”

Patient compliance with drug therapy deteriorates as the number of drugs taken increases. Because 25% of the elderly use three or more drugs daily, the elderly are particularly at risk.

Twenty-eight percent of hospitalizations of elderly Americans are due to noncompliance with drug therapy (11%) and adverse drug reactions (17%).

Information from Novartis and GlaxoSmithKline.
